

WILSON ON WAY ACROSS
TO STAY TILL THE END
OF PEACE CONFERENCE

Only a Small Crowd Was at the Dock to Bid Him Good-Bye, Much in Contrast to the Noisy Demonstration When the President First Sailed.

WAVED FAREWELL FROM SHIP'S BRIDGE

The George Washington Passed Quarantine at 9:10 A. M.; Was Soon Headed for the Open Sea—Strike Held Up Convoy of Tugs.

New York, March 5.—President Wilson sailed today on his second voyage to France determined, as he said in his Metropolitan opera house speech here last night, not to "come back till it's over or there." The transport George Washington bearing the president, left the Hoboken pier at 8:15.

The chief executive's departure was marked by a simplicity which contrasted with the noisy demonstration accorded him when the George Washington carried Mr. Wilson from American waters on his first journey to Paris last December.

Today only a small crowd was assembled at the army transport pier. To these the president, hand in hand, and Mrs. Wilson waved farewell greetings as the George Washington swung out into the Hudson river while the band on the transport Great Northland, berthed nearby, played the "Star Spangled Banner." Standing on the bridge, the president and Mrs. Wilson saw the American flag raised on the staff at the stern and heard the booming of the presidential salute of 21 guns. As the transport turned her nose toward the Statue of Liberty in the almost strike-paralyzed harbor, an escort of destroyers got under way ahead.

The president and Mrs. Wilson had 8 o'clock. Mr. Wilson had been up about the decks for nearly two hours, having been the first of the presidential party to arise. Most of the others were asleep when the transport sailed.

Just as the George Washington was about to sail it was discovered that someone had neglected to bring aboard the morning newspapers. The lines had been made fast to the gangplank which was about to be drawn in when the president's orderly, clutching a new dollar bill in his hand, rushed across the plank on to the pier and hurried through the flag-decorated airway to a news stand, where he purchased the papers and came running back to the ship. This incident delayed for a few minutes the vessel's departure.

These papers contained the text of the speeches of the president and of William Howard Taft in support of the league of nations, at the opera house last night. They told also of the activities of the president on the eve of his departure.

It was a few minutes before midnight when Mr. Wilson arrived in Hoboken and it was early morning before he reached his stateroom, so that his sleep was only brief.

The president arrived at the Metropolitan opera house about 8:15 o'clock last night. After Mr. Taft and himself had spoken the president asserting that an overwhelming majority of the American people is in favor of the league of nations, Mr. Wilson received a delegation of Irish-Americans, with whom he discussed the aspirations of Ireland at the peace conference. Militant suffragettes had tried unsuccessfully to force their way into the opera house earlier in the evening and a few of them were arrested.

The George Washington passed quarantine at 9:10 a. m. and was saluted by 21 guns by the U. S. S. Amphitrite and by whistles blowing by all the steam craft in the lower bay.

Owing to the harbor strike no private tugs were available to tow the George Washington out into the harbor. Two army transport tugs were present, but the ship was not under way, without their aid, by W. J. McLaughlin, a Sandy Hook pilot.

The ship sailed under command of Captain Edward McCauley, jr.

The president was cheered by nearly 1,500 homecoming troops as the George Washington, making for the open sea, met the incoming transport Sierra. The police boat patrol, conveying the official welcoming committee to greet the soldiers, waded to the troop ship the news that the Wilson liner was approaching. The Sierra's khaki-clad passengers shouted farewells to the president and crowded the rails as their vessel came opposite the George Washington, where the president, on the hurricane deck, waved his hat in acknowledgment.

IN CONSTANT TOUCH.

Wilson Will Know What Is Going On All the Time.

New York, March 5.—To enable President Wilson to keep in touch with the shore during his entire voyage to Brest, independently of the escorting vessels, the naval transport George Washington has been equipped with a new high-powered wireless apparatus with a radius of 1,100 miles. She will be in communication with the station at Brunswick.

He was wounded in the arm.

The army transport Sierra arrived from Bordeaux with 68 officers, 1,401 troops and three naval officers. CONFEREES IN ROW,
SECRETARY HOUSTON
LEFT IN DISGUST

Mayor Rolph of San Francisco Presented Resolution Demanding That Wilson Call a Special Session of Congress.

Washington, D. C., March 5.—Disaffection of western delegates over failure of the conference of governors and mayors to take definite action toward relieving unemployment, which had been in evidence since yesterday, culminated today in a row, during which Secretary Houston left the hall.

Mayor Rolph of San Francisco, who criticized Congress yesterday, precipitated the trouble by submitting a resolution which demanded that President Wilson immediately reconvene Congress, and in his message demand passage of important legislation which failed with the adjournment yesterday.

There was a heated discussion before the conference decided to send the resolution to a committee for a report later in the day.

GERMAN CABINET BRISTLES.

Will Not Submit to Coercion from the Entente.

Paris, March 5.—At a meeting of the German cabinet on Monday morning, attended by party leaders and delegates of ship owners, it was agreed unanimously, it is understood, that Germany could not submit to coercion from the entente powers, either in the armistice negotiations, or in the peace parleys proper, according to a Zurich dispatch to Le Journal.

The German government declared it would decline all responsibility for possible consequences if "the entente tries to speculate on German patience." Demands regarding the requisition of shipping are held to be absolutely unacceptable because, it is said, it would definitely "paralyze the country's economic future."

Germany will also oppose the dismissal of German crews from ships requisitioned, it being pointed out that this would throw 42,000 seamen out of employment.

A press campaign has already been started against the armistice and the preliminary peace conditions.

BOLSHEVIKI REPULSED.

They Attacked the Allies After Artillery Preparation.

Archangel, Tuesday, March 4 (By the Associated Press).—After artillery preparation, the bolshevik forces launched an infantry attack yesterday against allied positions on the right bank of the Vaga river between the villages of Kitka and Vistavka. They were repulsed with considerable losses. Allied scouts found many bodies in the woods after the engagement.

Along this front and also on the Deina river the bolsheviks continue artillery fire.

SENSATION IN PARIS.

When Russian Jew Fired Revolver in Protest Against Allied Intervention.

Paris, March 5.—A man, who later admitted his name was Kneller and that he was a Russian Jew, fired two revolver shots today from the Palais de l'Elysee, the residence of President Poincaré. Kneller, who at first refused to divulge his nationality, declared that he desired to protest against allied intervention in Russia. The shooting occurred in the presence of the guards and sentinels. The bullets struck harmlessly on the veranda of the Court of Honor.

Robert L. Mapes Is Said to Have Been Struck With Flatiron

ALLEGED ASSAILANT
IS CARL V. GOODWIN

Murder Took Place in the County Jail at Alfred, Me.

Alfred, Me., March 5.—Robert L. Mapes of Saco, awaiting trial on a charge of murderous assault upon a police officer, was killed in his cell at the county jail here today. According to the turnkey, Mapes was hit over the head with a flatiron by Carl V. Goodwin of Lebanon, his cellmate.

Mapes was arrested late in January, after he had barricaded himself in his father's home at Saco and held the police at bay for 24 hours. Goodwin, who is 19 years of age, was held for the grand jury last week on charges of shooting five officers and burning five sets of buildings along the Maine and New Hampshire border.

FIRED ON BERLIN RIOTERS.

Police Are Said to Have Inflicted Several Casualties.

Berlin, Tuesday, March 4 (By the Associated Press).—Government troops at police headquarters fired on rioters in the neighborhood this morning and several casualties are reported to have resulted. The troops had been called to disperse the crowds which were gathering in increased numbers around the headquarters.

Reports were current earlier in the day that a spartan marine division had seized police headquarters, but this turned out to be incorrect.

NO IMMEDIATE
SURRENDER OF ROADS

Contemplated by U. S. Government in Spite of Failure of Congress to Make the Appropriation Asked For.

Washington, D. C., March 5.—The government has no immediate intention of relinquishing control of railroads, as a result of the failure of Congress to appropriate funds for the railroad administration, Director General Hines stated today.

Mr. Hines also explained that every effort will be made to continue operations as usual to avoid paying off employees and to finance the railroads through private loans or through advances from the war finance corporation.

Although the railroad administration's program of capital expenditures for extensions, improvements and new buildings may be modified, the government will try to continue the projects planned through the next few months.

BERLIN DOCTORS STRIKE.

Will Not Answer Calls Till Public Service Utilities Resume.

Berlin, Tuesday, March 4.—Government troops have been gathered in Berlin to the number of 28,000, according to advices received here. It was announced at Monday's meeting of the Berlin workmen's councils that the railwaymen in central Germany had declared a general strike.

The bourgeois committee in Leipzig has issued a manifesto declaring that the bourgeois strike will be maintained until order is completely restored. The doctors of the city announce that they will refuse to perform services until the lighting, heating, water, food and street car services are guaranteed. The workers' councils, it is stated, promised to make every effort to restore the gas and electric services.

Grave incidents, including looting, are prevalent in Hanover.

ONLY AMERICANS ADMITTED.

To Officers' License in the American Merchant Marine.

Washington, D. C., March 5.—Only Americans by naturalization or birth are being given officers' license in the merchant marine. Chairman Edward Hurley of the shipping board, in a statement today, characterized as "misleading" cabined statements that German naval officers were taking advantage of existing regulations "to colonize" the growing merchant marine. Mr. Hurley asserted that more than 7,000 officers for engine rooms and decks had been graduated to date from the navigation and engineering schools and that all of them were American citizens with previous sea experience.

NEW YORK SHIPPING
IS PARALYZED

Harbor Workers' Strike Became More Effective To-day and Only a Few Ferryboats Are Operating.

New York, March 5.—Trans-Atlantic and coastwise shipping in New York harbor was at a standstill again today as the strike of harbor workers became more effective, and there were indications that the few ferryboats which did not cease operations yesterday would be tied up by tonight. Union leaders asserted that from 12,000 to 16,000 workmen were out and that at least 90 per cent of the shipping was paralyzed.

Neither the boat owners nor the strikers showed the slightest signs of yielding. James L. Hughes, a mediator, representing the department of labor, has suggested that the controversy again be submitted to arbitration, but his overtures have not met with favor from either side.

The strikers claimed they were satisfied with the progress of the strike and would remain out for months, if necessary, in order to gain their demands. The boat owners stated that as fast as new crews could be obtained tugs and other craft would be put into commission and that they expected a fair percentage of their men to be back within a week, meanwhile the strike has caused great inconvenience to thousands of persons who ordinarily use the Hudson river ferries to come to their employment here from New Jersey points and elsewhere. The Hudson tubes were again badly congested today.

While the municipal ferries so far have not been affected, the strikers claim that these boats will be idle soon. In this event, Staten Island would be isolated and many thousands of persons would be thrown out of employment during the embargo.

Tugs engaged in handling government ships, especially transports, have been exempted from the strike order, so there was no delay in the sailing of the George Washington, with President Wilson and his party for France today.

Another serious phase of the strike developed today when there was talk among the workmen of calling a sympathetic strike of 35,000 longshoremen. It was said the district council of longshoremen's union has this subject under consideration.

TO OPEN MOSCOW ROUTE

Bolsheviks Are Said to Be Planning to Bring Armies from Russia to Aid Spartacists in Germany.

Berlin, March 15 (By the Associated Press).—The Spartacists have inaugurated a movement to seize Koenigsberg, East Prussia, and thereby open a route of communication to Moscow, so that bolshevik armies from Russia might move to the assistance of the spartan forces, according to an official government bulletin today.

The government, however, the bulletin states, has sent forces into Koenigsberg to put down the spartan strike movement for the seizure of the town.

MUST REMAIN IN SERVICE LONGER.

Failure of Army Appropriation Bill Holds Up Discharges.

Washington, March 5.—Failure of the army appropriation bill and other military measures to pass before Congress adjourns today has put the discharge of a "difficult but not a serious situation," Secretary Baker said yesterday. No immediate shortage of funds to care for the troops is in prospect.

Mr. Baker said his greatest regret was that failure of the army reorganization bill meant that a number of men from the war-time army must remain in the service longer than would have been necessary otherwise.

The sentence of Amos Linden Hitchcock, former Socialist member of the school board of Cleveland, O., was commuted from ten to two years.

Washington, D. C., March 5.—A cold wave was sweeping eastward from the Great Lakes region today and the weather bureau announced that springlike temperatures prevailing generally over much of the country east of the Mississippi would disappear within the next 36 hours.

The most pronounced cold wave of the winter has been holding sway in the upper Mississippi valley. When it gets a good grip in the east, the forecast said, it will remain for several days. There will be rain, probably turning to snow late to-night or to-morrow in the middle Atlantic and New England states.

Every effort will be made, Mr. Daniels said, to take care of the returning veterans without leaving "blotches" on the naval establishment's credit.

He asked that anyone who knew of a returning soldier or sailor failing to obtain his old position under the navy department, report the fact to him personally.

Washington, D. C., March 5.—Victory postage stamps, a new three-cent issue, to commemorate the successful conclusion of the war, will be on sale soon throughout the country. In announcing the issue today, the postoffice department said the supply would not be sufficiently large to replace the regular three-cent stamps, and postmasters would sell victory stamps only on request.

The new stamp features the figure of Liberty, helmeted and with a sword in one hand and scales in the other. The whole design appears upon a shaded panel, with American, British, French, Belgian and Italian flags draped for the background.

Lawrence, Mass., March 5.—Thomas G. Connolly, counsel for the committee in charge of the textile strike here, announced today that a petition for the recall of Alderman Peter Carr, head of the police department, had been prepared and would be filed as soon as the necessary number of signatures had been secured.

The recall movement has been launched, according to Connolly, because of the alleged "unfair" activity on the part of the police toward the strikers.

BIG INCREASE
IN VERMONT

Number of "Wet" Towns Doubled Over That of Year Ago—St. Johnsbury Went Into License Column.

In yesterday's elections in Vermont, the number of towns voting to license the sale of liquor during the shortened year before the national "dry" regime was doubled over that of a year ago, so far as heard from. Nearly all the largest cities and towns voted "yes," the number including Burlington, Rutland, Barre, Montpelier, Bennington, St. Albans, St. Johnsbury, Colchester and Hartford.

Perhaps the greatest surprise of the day was the vote which placed St. Johnsbury in the license column for the first time since the local option law has been in effect. This was done by a margin of only 15 votes. The margin in Montpelier was even closer, there being but five majority for license.

Mayors of cities were elected as follows: Burlington, Dr. J. Holmes Jackson (re-elected); over Dr. H. R. Watkins; Rutland, James C. Dunn, over H. C. Brislin, the present incumbent; Barre, E. C. Glysson (re-elected, unopposed); Montpelier, H. C. Shurtleff (unopposed); St. Albans, H. M. Drennon over John L. Dempsey; Vergennes, W. S. Bristol, over S. D. Miner.

Cities and towns which voted to license the sale of liquor were as follows: Bennington county: Bennington, L. Caledonia county: St. Johnsbury, Chittenden county: Burlington, Colchester, Shelburne, St. George, Franklin county: Fairfax, Highgate, St. Albans City.
